GRAPE SEED OIL EXTRACT

Grape Seed Oil has mildly astringent qualities which help to tighten and tone the skin, which makes it useful for acne and other complaints. It is rich in Linoleic acid, an essential fatty acid quite important for the skin and cell membranes. Grape seed oil contains Procyandin that protects the body against premature aging. Procyandin also bonds with collagen and this promotes cell health and skin elasticity making it appear more youthful. Grape seed oil has regenerative and restructuring virtues and has great skin moisturizing properties. Grape seed oil has a very sweet aroma and is silky and none greasy in texture. It easily penetrates the skin and for this reason it is widely used as a carrier oil in the Aroma Therapy and Massage industry where it lends a shimmering touch to the skin and offers great relief to the tired and aching body.

ANALYSIS	SPECIFICATIONS	RESULTS
Palmitic C16:0	6.0 – 9.0%	6.5%
Palmitoleic C16:1	Less than 1%	0.2%
Stearic C18:0	3.0 – 6.0%	3.7%
Oleic C18:1	12.0 – 25.0%	23.4%
