## **ROSE HIP OIL**

Rosehip Oil (*Rosa Affinis Rubiginosa*) contains Vitamin A, which helps to delay the effects of skin aging, assists with cell regeneration, and promotes collagen and elastin levels to increase. This results in firmer, smoother, and more youthful skin with greater elasticity. Rosehip oil also contains a high amount of essential fatty acids and Vitamin E, which further promotes healthy skin. In particular, it is rich in linoleic and linolenic acids, which are important skin nutrients.

The positive action of Rose Hip Oil in helping to regenerate damaged skin tissues is due to its content of Trans-Retinoic Acids in a natural state as part of a complex system of unsaturated essential fatty acids. Therefore, its action is controlled and slowly released by nature, eliminating the risk of overdoses.

Scientific evidence has shown the properties of Rose Hip Oil in reducing dermal scars, the elimination of certain hyper pigmented spots and the lessening of wrinkles.

- Intensive Skin Rehydrator
- Prevents Skin Damage
- Attenuates Scars
- Skin Moisturizer
- Nourishes Your Skin
- Restores Normal Skin Color
- Rose Hip Oil is very effective in halting and even reversing the effects produced by the sun on the skin

<b>ANALYSIS</b>	<b>SPECIFICATIONS</b>	<b>RESULTS</b>
Myristic C14:0	0.0% - 0.3%
